Top Tips for Keeping Your Child Safe Online!

How safe are the apps and games you or your family play?

Go to www.net-aware.org.uk or download the app.

The screenshot shows the NSPCC NetAware app interface. At the top, there's a search bar with the text "Type and select network" and a search icon. To the right, there are buttons for "A-Z" and "Most popular". Below the search bar, there's a section for "Minecraft" with a small image of the game box. The text next to it says "Minimum age 13+" and "What do you think is the right age for Minecraft? Share your thoughts". Below that, there's a paragraph of text: "Minecraft is a game that lets you build and create a virtual world using building blocks. Other activities include using the multiplayer function to explore the worlds created by other users and to combat, chat and play with them." At the bottom, there's a section titled "What do I need to know about Minecraft?" with a sub-heading "We've joined forces with O2 to find out what parents of 8-12 year olds think about Minecraft. We've also".
