

21<sup>st</sup> April 2022

Dear Parent / Guardian,

After careful consideration, and with the success already demonstrated by our year 6 pupils, we have decided to trial the online learning platform, Atom Prime with all of our KS2 children.

Some parents/guardians have already accessed and are familiar with Atom, through the use of the home learning platform, Atom Nucleus.

This platform is free to use and will provide excellent personalised in-depth support for children in Key Stage 2. Atom will be used in the classroom and can also be accessed by parents looking to support children's learning at home. There is an opportunity to purchase the App through Atom, but this is entirely independent of the school and **there is no obligation** to do this.

### Creating your parent/guardian portal and login details

You will receive a secure link via email to create your Atom Prime Parent/Guardian Portal. This is a necessary part of our safeguarding provision as Atom can be used outside of school e.g. to complete a homework assignment.

When your child logs in, they will find a short Baseline Assessment has been assigned to their 'To-Do List'. This assessment is purely to ensure that the work is suitable for their needs and ability. To get an accurate picture, please ensure it is **completed independently** by your child to ensure the support is set to an appropriate level.

This term, teachers will begin to set time limited homework for classes and these can be accessed online inside and outside of school. Please encourage your child to login to check their 'to do' list and access the homework. You will be able to view their progress and how well they have achieved in each homework that they are asked to complete.

Please speak to your class teacher if you have any further questions.

Kind regards,

Mrs L Blunden
