

SEN & Disability Policy/SEN Information Report

Date of issue	Next review	Version
May 2025	May 2027	3
Author	Mrs L Wharmby- Co-Headteacher/ SENCO	
SEN Governor	Mrs G Keith- Hill	

This policy is written in line with the requirements of:-

- Children and Families Act 2014
- SEND code of practice: 0 to 25 years
- Special Educational Needs and Disability Regulations 2014
- Part 3 Duties on Schools – Special Educational Needs Co-ordinators
- Schedule 1 regulation 51– Information to be included in the SEN information report
- Schedule 2 regulation 53 – Information to be published by a local authority in its local offer
- Equality Act 2010
- Schools Admissions Code, DfE 1 Feb 2012
- SI 2012 1124 The School Information (England) (Amendment) Regulations 2012
- SI 2013 758 The School Information (England) (Amendment) Regulations 2013

Definition of SEN

A child or young person has SEN if they have a learning difficulty or disability which calls for special educational provision to be made for him or her.

A child of compulsory school age or a young person has a learning difficulty if he or she:

- (a) Has a significantly greater difficulty in learning than the majority of others of the same age; or
- (b) Has a disability which prevents or hinders him or her from making use of facilities of a kind generally provided for others of the same age in mainstream schools or mainstream post-16 institutions. SEND code of practice: 0 to 25 years

Definition of disability

Many children and young people who have SEN may also have a disability under the Equality Act 2010 – that is ‘...a physical or mental impairment which has a long-term and substantial adverse effect on their ability to carry out normal day-to-day activities’. This definition provides a relatively low threshold and includes more children than many realise: ‘long-term’ is defined as ‘a year or more’ and ‘substantial’ is defined as ‘more than minor or trivial’ SEND code of practice: 0 to 25 years

1 The kinds of special educational need for which provision is made at the school

At Mundella Primary School we can make provision for many kinds of frequently occurring special educational need without a statement of special educational needs / Education, Health and Care Plan, for instance dyslexia, dyspraxia, speech and language needs, autism, learning difficulties and social, emotional and mental health. There are other kinds of special educational need which do not occur as frequently and with which the school is less familiar, but we can access training and advice so that these kinds of needs can be supported.

The admission arrangements for pupils without a statement of special educational needs / Education, Health and Care Plan do not discriminate against or disadvantage disabled children or those with special educational needs.

2 Information about the policy for identification and assessment of pupils with SEN

At Mundella Primary School we monitor the progress of all pupils six times a year to review their academic progress. We also use a range of assessments with all the pupils at various points.

Where progress is not sufficient, even if special educational need has not been identified, we put in place extra support to enable the pupil to catch up.

Some pupils may continue to make inadequate progress, despite high-quality teaching targeted at their areas of need. For these pupils, and in consultation with parents, we will use a range assessment tools to determine the cause of the learning difficulty.

The purpose of this more detailed assessment is to understand what additional resources and different approaches are required to enable the pupil to make better progress. These will be shared with parents, put into a SEN support plan and reviewed regularly, and refined / revised if necessary. At this point we will have identified that the pupil has a special educational need because the school is making special educational provision for the pupil which is additional and different to what is normally available.

If the pupil is able to make good progress using this additional and different resource (but would not be able to maintain this good progress without it) we will continue to identify the pupil as having a special educational need. If the pupil is able to maintain good progress without the additional and

different resources he or she will not be identified with special educational needs. When any change in identification of SEN is changed parents will be notified.

We will ensure that all teachers and support staff who work with the pupil are aware of the support to be provided and the teaching approaches to be used.

3 Information about the school's policies for making provision for pupils with special educational needs whether or not they have EHC Plans, including

3a How the school evaluates the effectiveness of its provision for such pupils

Each review of the SEN support plan will be informed by the views of the pupil, parents and class/subject teachers and the assessment information from teachers which will show whether adequate progress is being made.

The SEND code of practice: 0 to 25 years describes inadequate progress thus:

- Is significantly slower than that of their peers starting from the same baseline
- Fails to match or better the child's previous rate of progress
- Fails to close the attainment gap between rate of progress
- Widens the attainment gap

For pupils with or without a statement of special educational needs / Education, Health and Care Plan there will be an annual review of the provision made for the child, which will enable an evaluation of the effectiveness of the special provision.

3b The school's arrangements for assessing and reviewing the progress of pupils with special educational needs

Every pupil in the school has their progress tracked six times per year. In addition to this, pupils with special educational needs may have more frequent assessments. The assessments we use at Mundella Primary School are based around a combination of our own school monitoring systems and Sonar. Using these it will be possible to see if pupils are increasing their level of skills in key areas.

If these assessments do not show adequate progress is being made the SEN support plan will be reviewed and adjusted.

3c The school's approach to teaching pupils with special educational needs

High quality teaching, differentiated for individual pupils, is the first step in responding to pupils who have or may have SEN. Additional intervention may be provided for targeted support. Schools should regularly and carefully review the quality of teaching for all pupils, including those at risk of underachievement. This includes reviewing and, where necessary, improving, teachers' understanding of strategies to identify and support vulnerable pupils and their knowledge of the SEN most frequently encountered SEND code of practice: 0 to 25 years

We follow the [Mainstream Core Standards](#) advice developed by Kent County Council to ensure that our teaching conforms to best practice.

In meeting the Mainstream Core Standards the school employs some additional teaching approaches, as advised by internal and external assessments e.g. one to one tutoring / precision teaching / mentoring, small group teaching, use of ICT software learning packages. These are delivered by additional staff employed through the funding provided to the school as 'notional SEN funding'

3d How the school adapts the curriculum and learning environment for pupils with special educational needs

At Mundella Primary School we follow the advice in the Mainstream Core Standards on how to adapt the curriculum and the learning environment for pupils with special educational needs. We also incorporate the advice provided as a result of assessments, both internal and external, and the strategies described in statements of special educational needs / Education, Health and Care Plans.

3e Additional support for learning that is available to pupils with special educational needsAs part of our budget we receive 'notional SEN funding'. This funding is used to ensure that the quality of teaching is good in the school and that there are sufficient resources to deploy additional and different teaching for pupils requiring SEN support. The amount of support required for each pupil to make good progress will be different in each case. In very few cases a very high level of resource is required. The funding arrangements require schools to provide up to £6000 per year of resource for pupils with high needs, and above that amount the Local Authority should provide top up to the school but this often requires application and a lengthy process before money is allocated.

3f How the school enables pupils with special educational needs to engage in activities of the school (including physical activities) together with children who do not have special educational needs

All clubs, trips and activities offered to pupils at Mundella Primary School are available to pupils with special educational needs either with or without a statement of special educational needs / Education, Health and Care Plan. Where it is necessary, the school will use the resources available to it to provide additional adult support to enable the safe participation of the pupil in the activity but may, occasionally, ask for support from a family member.

3g Support that is available for improving the emotional and social development of pupils with special educational needs

At Mundella Primary School we understand that an important feature of the school is to enable all pupils to develop emotional resilience and social skills, both through direct teaching, for instance PSHE, and indirectly with every conversation adults have with pupils throughout the day.

For some pupils with the most need for help in this area we also can provide the following access to counselling, play therapy, mentoring with member of senior leadership team or external referral to CAMHS.

4 The name and contact details of the SEN Co-ordinator

The SENCO at Mundella Primary School is Mrs Wharmby, who is a qualified teacher and is accredited by the National Award for SEN Co-ordination. Mrs Gretton supports SEN administration and referrals. Mrs James is the school's trainee SENCO.

The SEN team are available on 01303 252265 or senco@mundella.kent.sch.uk

5 Information about the expertise and training of staff in relation to children and young people with special educational needs and how specialist expertise will be secured

Teachers and teaching assistants have a range of relevant training including ASD, Speech and Language awareness, supporting Speech and Language impairment, Clever hands, Fizzy, Nurture and social skills. The school have access to play therapy and trauma informed intervention, or can make forward referrals.

Where a training need is identified beyond this we will find a provider who is able to deliver it. Training providers we can approach are: The Beacon Specialist Teaching and Learning Service, Elms, Goldwyn, Educational Psychologists, Speech and Language Therapists, School Nursing, CHYPS, Young Carers, East Kent Hospitals Trust, dyslexia specialists etc. The cost of training can be covered by the notional SEN funding.

6 Information about how equipment and facilities to support children and young people with special educational needs will be secured

Where external advisors recommend the use of equipment or facilities which the school does not have, we will purchase it using the notional SEN funding, or seek it by loan. For highly specialist communication equipment the school will seek the advice of the KCC Communication and Assistive Technology team.

7 The arrangements for consulting parents of children with special educational needs about, and involving them in, their education

All parents of pupils at Mundella Primary School are invited to discuss the progress of their children on at least two occasions a year (at Parents Evenings). They will also receive written reports (some pupils may also have personalised plans), twice a year. In addition we encourage ongoing communication from parents to school and vice versa; this fosters good collaboration. As part of our normal teaching arrangements, all pupils will access some additional teaching to help them catch-up if the progress monitoring indicates that this is necessary; this will not imply that the pupil has a special educational need.

If following this normal provision improvements in progress are not seen, we will contact parents to discuss the use of internal or external assessments which will help us to address these needs better. From this point onwards the pupil will be identified as having special educational needs because special educational provision is being made and the parent will be invited to all planning and reviews of this provision. Parents will be actively supported to contribute to assessment, planning and review.

In addition to this, parents of pupils with a statement of SEN / Education, Health and Care Plan will be invited to contribute to and attend an annual review, which, wherever possible will also include other agencies involved with the pupil. Information will be made accessible for parents.

8 The arrangements for consulting young people with special educational needs about, and involving them in, their education

When a pupil has been identified to have special educational needs because special educational provision is being made for him or her, the pupil will be consulted about and involved in the arrangements made for them as part of person-centred planning. Parents are likely to play a more significant role in the childhood years with the young person taking more responsibility and acting with greater independence in later years.

9 The arrangements made by the governing body relating to the treatment of complaints from parents of pupils with special educational needs concerning the provision made at the school

The normal arrangements for the treatment of complaints at Mundella Primary School are used for complaints about provision made for special educational needs. We encourage parents to discuss their concerns with the class teacher, in the first instance, then the SENCO; before going on to the Headteacher to resolve the issue before making the complaint formal to the SEN Governor.

If the complaint is not resolved after it has been considered by the governing body, then a disagreement resolution service or mediation service can be contracted. If it remains unresolved after this, the complainant can appeal to the First-tier Tribunal (Special Educational Needs and Disability), if the case refers to disability discrimination, or to the Secretary of State for all other cases.

There are some circumstances, usually for children who have an Educational and Health Care Plan where there is a statutory right for parents to appeal against a decision of the Local Authority. Complaints which fall within this category cannot be investigated by the school.

10 How the governing body involves other bodies, including health and social services bodies, local authority support services and voluntary organisations, in meeting the needs of pupils with special educational needs and in supporting the families of such pupils

The governing body have engaged with the following bodies:-

- Advice from specialist teaching and learning service or community of schools.
- Link to Disabled Children's Service for support to families for some pupils with high needs

- Access to local authority's service level agreement with Speech and Language Therapy Services / Occupational Therapy Services / Physiotherapy Services for pupil with requirement for direct therapy or advice
- Ability to make ad hoc requests for advice from Communication and Assistive Technology Team, etc
- Membership of professional networks for SENCO: SENCO forum.

11 The contact details of support services for the parents of pupils with special educational needs and disabilities and children and young people with SEND up to age 25 (Code of Practice)

Information Advice and Support Kent (IASK) provides a free and confidential, information, advice and support service, for parents of a disabled child or child with special educational needs and to children and young people up to age 25 who have a special educational need or disability.

Trained staff can provide impartial legally based information and support on educational matters relating to special educational needs and disabilities, including health and social care. The aim is to empower parents, children and young people to fully participate in discussions and make informed choices and decisions. Also to feel confident to express their views and wishes about education and future aspirations.

They can be contacted on: <https://www.kent.gov.uk/education-and-children/special-educational-needs/listening-to-your-voice-and-taking-action/Information-Advice-and-Support-Kent>

12 The school's arrangements for supporting pupils with special educational needs in transferring between phases of education or in preparing for adulthood and independent living

At Mundella Primary School we work closely with the educational settings used by the pupils before they transfer to us in order to seek the information that will make the transfer is a seamless as possible.

We operate a thorough transition process where children, families and pre-school setting representatives are invited into school on numerous occasions throughout term 6.

We also contribute information to a pupils' onward destination by providing information to the next setting. This will be in the form of appropriate paperwork and data; usually transferred as hard copies or through secure transfer, and very often we will meet with the SENCO of the new school to outline priorities and key information and have involved pupils

13 Information on where the local authority's local offer is published.

The local authority's local offer is published on <https://www.kent.gov.uk/education-and-children/special-educational-needs> and parents without internet access should make an appointment with the SENCO for support to gain the information they require.
