

Roman Chariot Paper Model

Roman Chariot Paper Model **Instructions**

Please note: The model will be sturdier if photocopied on to card.

1. Carefully cut out around the black outline of the chariot.
2. Lay the model out flat so that the wheels are at the top.
3. Fold the large red section back and over and glue it to the back of the brown section of the same shape.
4. Fold up along all of the dotted lines.
5. Curve the chariot round so that the wheels lay flat against flap 3 and 4.
6. Glue the two smaller flaps onto sections 1 and 2 underneath the carriage.
7. Glue flaps 3 and 4 halfway on the inside of the wheels making sure that the wheels stick out at the bottom.
